The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last three years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty-eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY,
August 20, 1851.-dly East Boston, Mass.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 12 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package

E. BUTTERFIELD
(Late Butterfield & Averell's.)
WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefor adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

TUESDAY MORNING, MARCH, 23, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore
PROPRIETORS.
UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

FROM OUR NEW YORK CORRESPONDENT.

New York, March 10.

The unexpected change in the British Ministry—unexpected at least so soon—was announced a few days ago, and to-day by the *Arctic* (in one of the accustomed short trips of the Collins Steamers) we have the list of the new Ministry. The Earl of Derby is to be the new Premier. He was many years ago in this country as Mr. Stanley—an intelligent and inquisitive traveller—is a man of ability; a good, but sharp speaker, and a thorough Protectionist. How this is to succeed, or to coalesce with the professed Free Trade notions in corn which are now the policy of England, I do not know; but as Lord Palmerston (the universal mischief-maker) is not in the new Cabinet, altho' he had the chief hand in overthrowing the old, and as he is not very likely to agree with any Cabinet, that does not include himself, I cannot see any great reason to expect stability for Lord Derby's Ministry.

D'Israeli is Chancellor of the Exchequer and leader of the House of Commons—a strange spectacle in a country, where a Jew is not permitted to hold a seat in Parliament, that a converted Jew should be the Parliamentary leader. D'Israeli is a man of rare abilities, a capital and telling speaker; but he has no root in the soil and no hold upon home-bred, domestic John Bull, who loves and trusts, really and implicitly, no race, nor blood but his own.

A new Parliament must, it would seem, be convoked, and many will be the issues discussed at the elections therefor. Meanwhile the wealth of the world almost, seems concentering in England: the Bank has *ninety-two or three Millions* of coin and bullion in its vaults, and money is seeking temporary investment even as low as the rate of *One per cent per annum.* It is hardly to be wondered at, under such circumstances, that attention is vividly turning to our American Stocks and Rail Road bonds and securities. Indeed, but for the ineffaceable dishonor cast upon American credit in times past by Pennsylvania, Maryland, Illinois, Mississippi, and Michigan, this excess of capital in England would long since have overflowed into our country, and helped forward the numerous enterprises of Internal Improvement, languishing in many portions of the land, for means of completion. In this way it is, that all parts of the Union feel the bad effect of misconduct, or dishonesty in any one part, and when it is said, as it sometimes is, that each State is responsible for its own course of action and character, it is not enough considered, that altho' without authority to control such action or character, *all the* States, composing the United whole, are held responsible, in just such consequences, among others, as that now in question, for the misconduct of any one.

We have had, within the last week, a great Webster demonstration here. It was not well managed. The call, signed, it is said, by some 9 or 10,000 names—the place selected, the most spacious and magnificent Hall in our city—and the occasion itself, all seemed to promise and to authorize some special attraction, at least in the way of Speakers. But no such thing Mr. Thayer, a good deal hackneied in our politics, and Mr. Fred. Tallmadge, ditto, were the chief Speakers, and they were not (to speak quite moderately) the men for such an occasion. A Mr. Barrett, of Indiana formerly, now settled here, followed; but he is too little known and was too little felt to produce any impression. Upon the whole, the proceedings disappointed all parties, as I apprehend; both those who promoted the call and those who, possibly desiring another candidate, feared its influence. It has not strengthened friends, nor discouraged opponents. Not one-third of the number, reputed to have signed the call, were at any time in the Hall. Altho', however, the meeting will not, in my judgment, strengthen Mr. Webster, it does certainly weaken, what before was inconsiderable, the chance of Mr. Fillmore. The Webster demonstration was the knell of *Fillmoreism* in this city and consequently in the State, for out of the city and immediate vicinity, except in Buffalo, Mr. Fillmore is not seriously spoken of at all in the State.

Here advanced in the first month of Spring, we still have the reign of Winter around us. The snow is on the ground, and a bleak air pierces the frame. It has been a most trying and tedious Winter; but which cannot much longer resist the influence of lengthening days and of the sun's more perpendicular rays.

Congress and the Legislature seem alike torpid. Perhaps they will thaw out too, one of these bright days and do something. President-making, at any rate, must soon be more overt in its demonstrations; for doubtless there has been plenty of covert intriguing during the Winter. The Democracy, so called, seemed sadly perplexed, and he would be a bold seer who should venture as yet to pronounce upon the chances of *any* name yet seriously connected with a nomination. On the Whig side indications seem to me unmistakeable that *Winfield Scott* will be the only name seriously pressed at the Convention. Some votes, to satisfy form and comply with instructions not meant to be very exacting, will be cast for Fillmore and for Webster: but the only real name is that of the Patriot Soldier, who has never lost a battle, nor withheld himself from any service, or any sacrifice, even to his life's blood, imposed upon him by his country.

Winfield Scott will, if he lives, be our next President, and glorious will it be to see such a man, without pledges other than a life devoted to the maintenance of the Laws, the rights and the honor of the Union; without enemies to punish, save only those whose misconduct should call for punishment; without any band of spoilsmen at his heels, claiming reward for having promoted his election—glorious will it be to see such a man in the Chair of Washington, and it *will* be seen! The Washington correspondent of the New York *Tribune*, writing under date of March 4th, 1852, says "Three years ago this day Gen. Taylor was inaugurated. One year hence Gen. Scott *will be*, if nothing breaks." Such is the growing sentiment, here and elsewhere, and so I have full confidence that it will be; and a desire as earnest that, for the National weal, it may be. Can Wisconsin stand back from such a candidate?

News in Advance from "Spirit-land."—The Waukesha *Gazette* of Saturday publishes "by request" sundry "spiritual communications," furnished to it by a "medium" in that town, and purporting to come from "George Washington." They are to the effect that in 1 year, 3 months and 6 days from March 6th 1852, Slavery will be abolished in the United States; that in 2 years, 4 months and 4 days, from the same date, the Mormons will be "dragged down to hell bodily," and that in 2 years, 5 months and 10 days from the same date, Hungary will be liberated and Russia, Austria and France sent to perdition. While this "medium's" hand is in, wont he tell us who is going to be next President of the United States, and what will be the price of Pork and Flour three months from date? He can make a small "pile" if he knows.

The same paper contains the following paragraph. We hope it is not George Hale who has been mistaking himself for "George Washington."

Another Victim.—We are sorry to learn that our worthy Citizen, Mr. George Hale of Antioch, is laboring under mental aberration, occasioned by the "Spiritual Doctrines." Mr. H. is Surveyor of this County.

☞ The first Steamboat of the season arrived at Galena, from below, on Saturday, 13th instant, and two others on the 14th. The river is in fine order for navigation, and the prospects for business excellent.

Arrival of Cuban Captives.—The ship Prentice arrived at New York on the 12th instant from Vigo, Spain, having on board ninety-five captives of the Cuban expedition, that were liberated by the Spanish Government.

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, March 19, '52.

The mail which should have arrived here on Wednesday night, so as to be distributed in the morning, found its way into town last evening at 7 o'clock, being thus some 19 hours behind. It may be that all this delay is necessary, but it looks like bad work to be thus much behind in the distance between here and Watertown.

An English paper now before me, in giving an account of a terrible snow storm in Scotland, has the following paragraph:

> "We understand that yesterday there were no less than 160 bags over due at the Post office; and although some have come in, no mails from Inverness or beyond have appeared for 3 days. The guards state the storm was the heaviest that they have known since 1826. The post office department has despatched extra officers to Aberdeen and Perth, and every possible exertion is used to obviate the serious inconvenience the public must experience, &c."

How does this compare with the manner in which mail contractors are allowed in this country, to do as they please? Witness the outrageous delay of the great western mail for 15 to 20 days around the south side of Lake Erie last winter. How far the contractors between here and Milwaukee are liable to censure just now, I do not know. Passengers report, however, that the road between here and Watertown is in a terrible condition, and there are rumors of bridges gone from the plank road beyond.

General Wm. R. Smith, well known to all who are familiar with men and things at the Capitol, for many years, lies very dangerously ill of bilious pneumonia at the Madison Hotel. It will be recollected that a claim of his for a balance as Clerk of the last Senate, was rejected in the Assembly some weeks since. This morning Doctor Hoyt moved to reconsider the vote rejecting it, making the question one of sympathy for the General, and either he or Mr. Earnest stated that the implication of bad faith upon the claimant had preyed upon his mind very seriously. Several members expressed their willingness to do anything in reason for Gen. Smith, but that they could not allow their sympathy for him to influence their votes upon a bill which they were satisfied ought not to pass. The bill finally passed, Ayes 45, noes 11.

Another petition for the Maine Law coming in, Mr. Sholes moved to refer it to another select committee. He was understood to say that he only wished to test the sense of the House as to the necessity of repeated reports on this subject. A motion to instruct the committee to report on the 4th of July being made, Mr. Utley remonstrated against such instructions, on the ground that the expectation of a "cold water report to be forthcoming on that day, would dampen the ardor of the *ardent spirits* which generally celebrate that day." The instructions were lost, and the select committee ordered.

The resolution introduced by Mr. Mott yesterday to make the liquor traffic and capital punishment bills the order for evening sessions, was opposed by Dr. Hoyt, because he thought that there was work enough done already, and hours enough occupied; and by Mr. Sholes as to the last bill named, because it was ready for its 3d reading in the regular order of business. The resolution failed to pass, to the regret of many members who are anxious to get on more speedily with business.

An important bill relative to school monies passed the Assembly this morning. It provides that county treasurers, instead of bringing up their State tax and conveying back their portion of the school monies, may retain the share of the school money, to which their several counties are entitled, and pay over the balance to the State Treasury.—So far so good; but then the bill also provides that the State Treasurer shall retain out of the school monies, the amount of State tax where it is not paid. It looks to me very unfair that the children shall be refused the appropriation for their benefit, because, some portion of the people, and, in most cases, non-residents, have refused to pay their taxes, and thus left the county in debt to the State; and it not only looks unfair, but I very much question the right of the State to pay itself for deficiencies of any kind out of the school fund. I am no lawyer, nor the son of a lawyer, but I don't believe the proposed action on the part of the State could stand the test of a court of law or equity for a moment.

A move was made in Assembly which will result, it is hoped, in increasing the appropriation to the State Institution for the Blind.

You will recollect that the House passed some days since a resolution, very frankly confessing that it had "fooled away" a great deal of time.—Well—the Senate had the infinite courtesy to send word by their Chief Clerk to-day, that they entirely concurred with the Assembly. The edge was sharp, and it was hardly blunted by a retort, courteous, in the shape of a resolution that "in consideration of a tremendous effort of the Senate on the subject, and the consequent exhaustion of that body, it might as well adjourn for the rest of the week."

No time was fooled away this morning, the House having passed some 25 bills to an engrossment, passed finally four or five, and worked for an hour or so on the general file.

The Senate committee on the liquor traffic has reported a bill suppressing the trade, without any provision for submitting the question to the people, as they intimate a doubt as to the constitutionality of a law which is not in effect without being submitted to the people for their ratification.

The Bank Law moved along this afternoon to its 36th section, and there stopped. Mr. Graham had just renewed his amendments, concerning redemption agencies, which were lost in committee. I was surprised, and so were the members themselves to find that they took the back track upon the interest question, and, by striking out a single word, left the matter open to future legislatures to experiment upon. The amendment proposed by Mr. Hackett in committee and adopted by a decided majority, provided for 10 per cent interest till 1860, and it was a wise provision, which, it is hoped, will yet be incorporated in the bill.

The mail arrived to-day at noon.

Government Drafts Protested.

The New York *Journal of Commerce* calls attention to the fact that with our public credit at high water mark and the public treasury overflowing with money, repeated instances have occurred during the past few weeks, of Government Bills being *protested*, thro' the gross and inexcusable neglect of our "Democratic" Congress to do the work for which it convened at the Capitol. Very recently a bill for Government supplies to the amount of $15,000 was drawn by an office of the Quarter Master's Department, and the draft forwarded thro' a New York Bank, to Washington, for collection. It was returned *protested* with the following letter from the Quarter Master General, explaining why:—

> "Quarter Master General's Office,
> "Washington City, March 5, 1852.
>
> "Sir:—I regret that it is not in my power to pay the draft of Captain S. Van Vliet, in favor of Messrs.——, for $15,000, which was enclosed to this office in your letter of the 2nd instant, the appropriations for the Quarter Master's Department, for the present fiscal year, *being exhausted*. All I can do is to promise that it shall be paid so soon as *Congress makes an appropriation*.
>
> "A bill has been reported to the House of Representatives, by its Committee of Ways and Means, providing the means for carrying on our operations for the remainder of the year.
>
> "The draft is herewith returned; and I am, sir, very respectfully, your obedient servant,
>
> THOS. S. JESUP,
> Quarter Master General.
>
> "To———, N. York."

Congress has been in session nearly *four* months. The pressing necessity of appropriations, to meet liabilities like the above, and to carry on the ordinary operations of Government, was made known to the House, early in the winter. Yet, instead of making provision to liquidate these demands, Congress wastes its time in idle, and unprofitable political discussions; in President-making and marring; in personal bickerings illustrated, occasionally, with personal encounters; and in anything, in short, rather than attend to its proper and legitimate business.

Several Daniels Come to Judgment.

The incidents of the Ratcliffe trial, and the comments which the unexpected verdict of the Jury elicited from the Milwaukee press, are the theme of extended and intemperate animadversion in the Janesville papers. The *Standard* editorially and the *Gazette*, by the hands of a correspondent, take the Bench, the Bar, the People and the Press of Milwaukee, individually and collectively to task, first, for pressing, as earnestly as they are accused of doing, for Ratcliff's conviction, and second for presuming to question the propriety of his acquittal. We are disposed to make all due allowance for the very limited knowledge of the *facts* in the case upon which our Janesville contemporaries base their censures, and for the peculiarly distorted vision with which they habitually regard matters and things in Milwaukee. But after all deductions on these accounts there still remains a mountain of prejudice and misstatement in their articles for which we are entirely at a loss to account.

We propose to notice, very briefly, one or two of the grosser errors into which those journals, either wittingly or unwittingly, have fallen. The *Standard*, which approves entirely of Ratcliff's acquittal and evidently regards him as a deeply wronged and much abused individual, deliberately asserts that "an attempt was made to overawe the Jury by outside influence." This is a transparent falsehood. The Jury were carefully guarded from all contact with the public and were *entirely in the dark* as to what public sentiment was, till after their verdict had been rendered and themselves discharged. That they found it out *then*, is more than probable. The *Standard*, catching up the libel first started by the *Wisconsin*, says:

> We all know that in a city composed of the material which make up the population of Milwaukee, public opinion is always shocked when a good prospect for an execution is marred by the verdict of a jury.

Without entering into any "odious comparisons," it suffices to say that the population of Milwaukee, in "material," intelligence, industry and general good conduct, will compare very favorably with that of any city, or village, East or West, and that so far from the "shock" in question being limited to those who think that deliberate Murder should be punished with death, it was quite as deeply and sincerely felt by those who are opposed to Capital Punishment. Lastly, the *Standard* "suspects" that the meeting held to review the verdict of the jury was mainly composed "of *rowdies* who have no very *ardent* desire for the faithful execution of the criminal laws of the State." The meeting was entirely respectable in character; and however men may differ as to the policy of holding it, none can deny that its proceedings were orderly, and the sentiments and language of its resolutions unexceptionable.

The correspondent of the *Gazette*, vouched to be a lawyer of "judgment" and "experience," finds other flaws in the conduct of the press and public. He censures, as "improper in a case of blood" (!) the employment of Mr. Ryan to assist the District Attorney in the prosecution; as if the graver the case, and the higher the crime, the stake of the community in the result, and their *right* to the ablest counsel, were not all the greater. He professes to have read the evidence through carefully and to be entirely satisfied with the correctness of the verdict, and tenders his thanks to "the manly independence and righteous judgment of the jurors" for standing up against "the suddenly arroused, indignant virtue of a portion of the citizens of Milwaukee who, it would seem, had fore-doomed Ratcliff to death." It is a sufficient answer to this outburst, that no man had "fore-doomed" Ratcliff, and very few were familiar with the facts, or had formed any opinion upon them. The conviction of his guilt grew as the trial progressed, and before its conclusion became *universal*. But of this, as we have already said, the Jury were profoundly ignorant, and these thanks, therefor, to their "manly independence" are entirely superfluous. Finally, the writer in the *Gazette*, like the editor of the *Standard*, attacks the conduct of Judge Hubbell and likens him to bloody "Jeffreys." Against such envenomed shafts the Judge can oppose the consciousness of having done his duty, and the satisfaction of knowing that the entire community, friends and foes, approve and applaud his conduct. We adopt very heartily what the *Commercial* says on this point:

> As for the conduct of Judge Hubbell, it forms a seperate matter in the charge, and merits a separate notice. The Press and the Public will feel little hurt at the strictures of strangers. The conduct of a public officer is a fair matter for criticism, and should at all times be open to inspection. And in this instance Judge Hubbell is above reproach, and his course, both as an officer and as a man, throughout this whole matter, is the subject of the warmest commendations by both friends and enemies. When thus the subject of unequivocal approval by those who waited upon the trial day after day, and by all who knew the facts, a Public Officer can afford to be indifferent to the complaints of ignorance and prejudice; and while so freely and so warmly commended at home by his own constituents he can be little affected by the remote strictures of those beyond the line of his official jurisdiction, and equally strangers to the parties and the facts.

There are other points, deserving perhaps of notice, or contradiction, in these twin Janesville articles, but we have no space to pursue the subject. It *may* be that public opinion in Milwaukee is all wrong in reference to Ratcliffe, and that he is not the hardened villain and cold-blooded murderer that everybody believes him to be. If so, it is unfortunate for him that the verdict of a second Jury has given him a Burglar's passport to the State Prison, since, if released from confinement, he might have removed to Janesville where his civic virtues and social qualities seem to be much better appreciated than in Milwaukee.

Another Disgraceful Brawl in Congress.—Messrs. Brown & Wilcox, two democratic representatives from Mississippi, had a personal altercation in the House on the 12th inst., which ended in a regular pugilistic set-to. It was stopped by the interference of other members. If they had been permitted to pummel each other to their heart's content and had then both been summarily expelled, we should hear no more of these scandalous scenes.

☞ The Senior Editor of the Madison *Argus* endorses "Porte Crayon's" attack on us for our opposition to the Death Penalty.—*Free Dem.*

The *Argus* made no reference whatever to any "attack on us," but simply endorsed "Porte Crayon's" communication on the subject of Capital Punishment, as "speaking its sentiments exactly."

☞ The *Wisconsin* says that the contest for the city Printing was "narrowed down to the *Sentinel* and *Free Democrat*." This is so far true that the *Wisconsin* at least was entirely out of the question. It also avers that the selection of the *Free Democrat* will "seriously affect the *Sentinel's* influence with its party." Pecksniff must have forgotten that he has repeatedly declared this "influence" to be entirely gone!

Lake Navigation.—The weather has moderated and the steamboats are making their regular trips again. The *Pacific* came in Sunday and left yesterday, and the *Ward* arrived last night and leaves again, for Chicago, this morning.

To Correspondents.—We have sundry communications on file, for which we will make room as fast as demands upon our columns permit.

THE FIRE AT EAST TROY.

East Troy, Wis., March 19, 1852.

Police Court.

March 22, '52.

The State vs. Ruben Jones. The defendant had his examination this afternoon, for stealing a horse in Dane County, the property of Mr. Churchill, and which he had brought to this city for sale. In default of bail in the sum of $500, for his appearance at the next Circuit Court, he was committed to jail.

A Caution to "Runners."—The Common Council of our City have passed an Ordinance to regulate and restrain "runners," of which the first section runs thus:

> "Sec. 1. That any runner or solicitor for boats, railroads, public houses, or other establishments, who shall, when engaged in his employment, make any unusual noise or disturbance, or make use of profane, obscene or boisterous language, or use any language, or be guilty of any act calculated to disturb the peace or good order of the city, or harrass, vex, or disturb strangers or citizens, shall be subject for each offence to a fine of not less than two dollars, and not exceeding twenty dollars.

The second section empowers the Mayor, Marshal and other conservators of the peace, to enforce the above and to give such directions to maintain order, &c., at the public landings as they may think fit.

☞ We learn from incidental mention of the fact made by the London *Times*, that the magnificent aurora borealis which was observed over this whole continent on the night of Thursday, February 19th and early the ensuing morning, was witnessed at the same time in England, and is described as being very brilliant.

Panorama of the Hudson.—This pleasing exhibition will be open this afternoon for the special accomodation of Schools, and the price of admission reduced to *ten cents* for each pupil.—There will also be an exhibition in the evening, commencing at 7½ o'clock, admittance 25 cents. All who have seen the Panorama speak well of its merits.

Land Warrants.—The New York *Tribune* of the 11th instant says:

> "There is but a small amount of Mexican land warrants in the market, which are selling at $130 to $135. The new warrants which are not yet assignable, are sold with difficulty to speculators at about fifty cents per acre."

Heavy Hogs.—Mr Hill, a pork-packer of Mt Tabor, Iowa, having offered a premium for the heaviest hog killed at his house, received five hogs in competition. The lightest weighed 719, and the heaviest 791 lbs.

Counterfeiter Committed.—Lowell P. Magoon, arrested in Waukesha Co. for making, and passing counterfeit coin, has been examined before U. S. Commissioner Winfield Smith, of this city, and held to answer at the July term, and in default of bail committed.

Tolls Reduced on the Erie Canal.

The New York Canal Board have made some material reductions in the tolls on the State Canals for the ensuing season. On all Merchandize (with a few specified exceptions) the reduction is *one-half*, from 8 to 4 mills per mile, per 1,000 lbs.

Butter, tallow, cider, vinegar, and beer reduced from 4 mills to 3.

Salted pork, bacon, lard, grease and lard oil from 3 to 1½ mills.

Ashes and window glass from 4 to 2 mills.

Rye, pease and Beans, from 4 to 3 mills.

Flour starting and going from tide water, from 3 mills to 1.

Railroad iron from 2½ mills to 1½.

The reduction on flour going from tide water is made to benefit Troy and Albany as regards the local trade of Lake Champlain.

The reductions on cotton, tobacco and ashes per ton are as follows:—

	1851.	1852.	Reduction.
Cotton,	$1,46	73	73
Tobacco,	2,92	73	2,19
Ashes,	2,92	1,46	1,46

These reductions will greatly increase the shipments of cotton and tobacco from the South to the East via Cleveland and Buffalo: and many ashes which are now sent to Pittsburgh will seek a market through the Lake route.

Telegraph Despatches.—After a long interval of repose the Telegraph lines, East and West, "gave down" liberally last night. The news from Madison is quite interesting. The Assembly have *killed* the bill abolishing Capital Punishment, as well as that giving the Attorney General another bone.

The New York Market shows a slight decline in prices generally, consequent upon the advices by the Pacific.

Through Tickets to California.—Through tickets to California, by steamer, can be obtained of Mr. A. H. Pride & Co., Agents for the Independent Line. For terms &c., see their advertisement in this morning's paper. Their steamers leave twice, or thrice a month.

☞ We were glad to learn by Telegraph from Madison, last evening, that Gen. William R. Smith, who was very dangerously ill on Friday and Saturday, is now somewhat better and that hopes are entertained of his recovery.

Death of the Poet Moore.—The steamship *Asia* brings intelligence of the death of Thomas Moore, the Irish Poet, at Sloperton Cottage, on the 26th of February, in the 72nd year of his age.

The harp that once thro' Tara's halls
The soul of music shed,
Now hangs as mute on Tara's walls
As if that soul were fled.

Repairs to the Dam.—The freshet in the River having partly subsided, the workmen yesterday commenced repairing the Dam. It is estimated that the repairs will cost some $1500 and occupy two or three weeks. Meantime the Mills are *perforce* idle.

Belgium—Alliance with Russia—Preparations for Defence.

The following is an extract of a letter dated Brussels, February 19, 1852:—

> A convention has been concluded between our government (the Belgian) and Russia, whereby the latter engages to furnish 100,000 men for the defence of our territory, in case it should be invaded, or seriously menaced by France. Should the Baltic be open, these troops (including the Imperial Guards) are to be transported by a Russian fleet to Antwerp.
>
> Prussia promises us assistance to a like extent. The object of the present mission of the Prince de Ligne to Berlin is to arrange the *modus operandi*.
>
> Our own army numbers 90,000, of whom 70,000 would take the field, and the remainder occupy our fortresses.
>
> Holland, interested in the protection of Luxembourg, agrees to furnish a contingent force of 30,000.
>
> Hopes are entertained that England, as one of the powers guaranteeing the independence of Belgium, will co-operate with a fleet in the Scheldt and a garrison for the citadel of Antwerp.
>
> But you see that independent of England and Austria, who might weaken our enemy by a diversion on the Mediterranean, our northern coalition musters 300,000 men; a force quite sufficient to repel the threatened invasion, if not to chastise its authors at a second Waterloo.
>
> This country still swarms with French spies and police agents.
>
> I am assured, in a trustworthy quarter, that the Emperor of Russia has ordered the fifty millions of francs, which he invested in French Rentes in 1847, to be transferred to the Dutch funds, as he does not consider his money safe in France after the Orleans confiscation.
>
> The letters from Paris, received to-day, tend to confirm the foregoing; they state that the war-like language of the Elysee has, within the last few days, very much changed, which is attributed to a despatch said to have been communicated to the French government from the government of Great Britain, to the effect that in the event of a single French soldier entering the Belgian territory, the city of Antwerp and the forts on the Scheldt would be immediately occupied by an army of 10,000 men, with the concurrence of all the great powers of Europe, including Russia.
>
> It appears from the united testimony of well informed Paris and Belgian papers, that the Prince de Bassano, French Ambassador extraordinary at our court, has been charged with the commission to demand from our Government the destruction of the Waterloo monuments. He is said to have already discharged his commission, but not to have received an answer.
>
> It is scarcely necessary to call attention to the importance and wide significance of this apparently secondary demand. It is not known whether it is this demand alone, or whether other indications may have had their influence; but it is certain that the government begins to entertain serious thoughts of inimical feelings on the part of France, and is preparing for them.

Rowell's Model Mill.—The new Flouring Mill just erected by Henry Rowell, Esq., on "Blue Mound Branch," near Dover, in this country, is said to be the best specimen of Architecture in the West. It contains three run of superior Burr-stone, and extensive bolts of the most improved kind, constructed in such a manner as to enable him to keep his custom and merchant work entirely separate. Mr. Rowell has supplied his mill with a patent grain separator of the most improved kind, and also a sewing machine for the manufacture of sacks, for such as desire.—This mill is situated in the midst of an excellent wheat growing country, and within three miles of the Wisconsin River, where he can ship his flour for the lower market, during a large portion of the year. We have no doubt, (from specimens of flour heretofore furnished by Mr. R.) that his flour will be of the very best quality, and we trust he will find the money expended in the construction of this mill a profitable investment.

Mr. Wm. Wheeler was the Architect, and has proved himself in the erection of this model mill, to be inferior to no man as a Mill-wright.—*Mineral Point Tribune.*

New York, March 17.

The Seward Association at Brooklyn, an Irish benevolent society, have received the following reply from Gen. Scott to an invitation to attend their anniversary supper:

> Washington, March 17.
>
> Gentlemen:—It was only yesterday that the pressure of public business obliged me to decline the honour of meeting a number of Irish friends at the approaching celebration of St Patrick's Day in Philadelphia. I beg you will accept what I said to them in reply. You do me but justice in supposing me to take a lively interest in Ireland and her sons. Perhaps no man certainly no American owes so much to the valor of Irishmen as myself: for many of them marched and fought under my command in the war of 1812, and many more thousands in the recent war with Mexico, not one of whom had been known to turn his back upon an enemy or a friend. I remain,

The Festival.—The festival to the State officers and members of the legislature by the citizens of Madison, came off last evening at the Capitol, and was all that the most sanguine could expect or desire. About 600 persons participated, 200 of whom were ladies. The large Assembly Hall was fitted up for dancing and was crowded to its utmost capacity. The wavy motion of the dance is still surging our brain, and the strains of Pritchard's fine band ringing in our ears, while forms of loveliness and beauty float before the imagination—a prosy description embracing details is therefore out of the question. The *feature* of the occasion was the supper tables, spread by Messrs. Welch & Van Bergen, displaying as they did a style of magnificence never before attempted in this wooden country. If the members of the legislature are not now satisfied with the location of the Capitol, why, let them move it, for we have made our best bid.—*Madison Democrat.*

Caravan for California.—A company of fifty-two men, with thirteen wagons and fifty-one horses, will leave Dearborn, in this county, for California, on Tuesday morning, by the Central Railroad cars to Chicago, whence they will proceed by land route to California. The number of young men who go to California from Michigan this season is very great, much to the enhancement of the wages of those who remain.—*Detroit Advertiser 15th inst.*

COMMERCIAL.

THE MARKETS.

Office of the Daily Sentinel,
Milwaukee, March 23, 1852.

The past week has been a dull one in our market. The damages to the different roads, leading into our city, from the heavy rains and freshet of Saturday week, interrupted very seriously our communications with the country.—Receipts, in consequence, have been very light, and transactions nominal. This week the market shows a marked improvement in prices, especially in Pork, which has advanced rapidly in the New York and New Orleans markets, since the first of the month. We heard of offers, yesterday, for large lots, of $14 ⅌ bbl. for mess, and note sales of small lots, 50 and 100 bbls, at $13 and $13,50. It is now generally held at $14@14,50.

Wheat, light receipts, and selling at 40@50 for spring, 60 375 for winter. We hear of the sale of a cargo of spring wheat at Waukegan, at 41c. A similar lot is on the market here at 42c.

Barley, very little coming in, taken at 35@40c; Rye, 38 @40; Corn 31@33; Oats 18@19, and 10,000 bu free on board sold at 20c.

Flour, without change: city brands held at $3,50@3,75 by the quantity. The mills are still idle, and two or three weeks must elapse before the injuries to the dam can be repaired.

Pork in request at $4,50@5,00—very little coming in.—Mess firm at $13,50@14,00.

Freights promise to rule high. The quantity of Grain, Flour and Pork to go forward from the ports on this Lake is very large, and vessel owners are asking pretty big prices. We hear as yet of no contracts; 12½ cents a bushel on wheat to Buffalo has been offered.

Chicago, March 20.—We learn of a sale of 11,000 bu wheat, to be delivered on board, at 41c. Also a sale of 10,000 bu corn, (56 lbs ⅌ bu) also on board, at 26c. Sales of small parcels during the last 24 hours, sum up as follows:

Wheat—652 bu spring at 37@44c, and 120 bu winter, for mills, at 67½c. A first rate article of the latter would command 72c for the mills.

Corn—472 bu shelled at 33@34½c ⅌ 60 lbs.

Oats—550 bu at 18@19½c ⅌ 32 lbs.

Provisions—Mess Pork is held firm at $14 in lots. We learn of an offer of $13,75 for several hundred barrels, but refused—$14 being asked.—*Tribune.*

Cleveland, March 15.—Little change from last week's rates. Prices are only nominal. Wheat, 73a75c. Flour, $3,00a3,71, extra brand $4. Pork—mess, $14—very little in market. Ham—common, 7c, sugar cured, 9a10c. Shoulders, common, 5a6½, sugar cured, 7a7½c. Lard, 7½a8c.

Produce at Waukegan.—The Waukegan *Gazette* of the 20th inst. gives the following statement of the produce in store at that point: Wheat, 83,800 bus; Corn, 11,750 do; Oats, 33,300 do; Barley, 3090 do; (making in all 131,040 bus of grain,) and Flour, 3708 bbls.

Produce in Store at Sandusky.—As the season of navigation is about to commence, we have taken some pains to ascertain the quantity of property to go forward. The following statement shows the Wheat, &c., in store at this point on the 15th of March inst:

Wheat, bu.	370,500
Corn, bu.	50,260
Flour, bbls.	44,015
Pork, bbls.	2,692
Whiskey, bbls.	1,493

THE "NIGHTINGALE," on her trip from New Orleans to St. Louis, caught a severe cold. Barnum was so much excited in view of the chance of losing $20,000 by her non-performance the first evening, that as soon as the party arrived at the Mound City, he started out in search of a remedy for the warbler. "*Dr. Storm's Celebrated Scotch Cough Candy*," he read in flaming letters at the first drug store; "The very thing," says he; "heard of it in Europe." A package was purchased instanter, and—Jenny sang that night more sweetly than ever. feb16 1m

A CURE FOR BRONCHITIS.
THOSE who suffer from Bronchial affections, connected with a weakened and deranged state of the stomach, especially if accompanied with acidity, which is not unfrequently the cause of the disease, are referred to the following extract from the *St. Louis Herald*:
Oxygenated Bitters.—Among our advertisements are some of the most approved patent medicines, one of which the Oxygenated Bitters, we have tried. While under medical treatment by a physician of this city, for a distressing bronchitis of two years' standing, we were induced to try these Bitters, suspecting they were composed of the very thing which he had prescribed. The effect was immediate and permanent, and the cure soon completed. Wherever a bronchitis is connected with a deranged stomach, we have no doubt this medicine will give great relief. The patentee has the merit of rare honesty, when he tells us to stop taking the medicine, if not benefitted by two or three bottles.

ENGLAND.—Elections of new Ministers progressing. There was a *mutiny* on the packet ship Queen of the West, at Liverpool, on the 6th. It was quieted *after a terrible fight*, and she sailed on the 9th under a new captain. Her former captain, Moore is a passenger on the *Pacific.*

THE KAFFIR WAR.—Present accounts from Cape of Good Hope are satisfactory.

FRANCE.—Quiet. The government arrangements for banks is satisfactory to commercial men, The fusion of the two branches of the Bourbon family is again agitated, with a certainty of satisfactory termination. The sappers staff of officers in Paris are ordered to return to Switzerland forthwith. Belgium has made a treaty of Commerce and Navigation with England. Difficulties between France and Switzerland are arranged.—The French Ambassador suddenly left London for Paris. A steam frigate sailed from Toulon to Algiers with 300 political exiles. Doctor Michelet has raised the standard against the established church of France.

TURKEY—*Rebellion in the Army.*—Alarming accounts of a rebellion in the northern district, in an army of 10,000 strong, with forty guns, has occurred. It proves that a widely-spread conspiracy to overthow the existing government, has been brought to light. Every bridge and every ferry on the Danube is guarded. Boats on the river Danube unmanned are destroyed, and every point of communication with Austria is occupied by strong pickets.

ARREST OF MURDERER.—N. H. Crist a tanner, was arrested in his own house at Cleveland on Saturday last, for the murder of Theodore Nye, of Cincinnati, but at the time of his death at Mobile, on his way to California. Crist was traced to Cleveland by the officers of Mobile.—His wife is the daughter of Judge Lugenbeel, of of Cleveland. The *Herald* thus relates a scene which took place upon the arrest of Crist:—"The Court of Common Plase was in session this forenoon and Judge Lugenbeel was serving upon the Jury, when, in the midst of argument, Mrs Crist rushed in to Court, forced her way to her father, and falling upon her knees, informed him of the arrest of her husband. The scene was one of intense interest. The Judge was of course excused from the Jury."

FIRST BOAT.—The good steamboat Northerner, Capt. Sweet, came into the harbor this morning from Grand River, taking the place in the "maw of Lake and River" which winter has got his icy fingers out of.

The Northerner was the last to lay up and is the first out, and the gallant craft will leave for Dunkirk on Monday. Capt. Sweet will go thro', "Providence permitting."—*Cleveland Herald*, 13th inst.

ARRIVED.—The schooners Windsor and Union arrived on the 18th, from Racine—the former loaded with salt, for this place, having been caught at Racine at the close of navigation—the latter loaded with wood.—*Chicago Tribune*, Saturday.

JAIL EMPTY.—The Iowa County Jail is again without tenants, and we might add that for some time past, it has been occupied only by a few select boarders from La Fayette county.—*Mineral Pt. Trib.*

IMPORTANT TO CONTRACTORS.

PLANK ROAD LETTING.

PROPOSALS will be received by the undersigned for the graduation, superstructure and bridging of the Glasgow and Huntsville Plank Road.

For the information of non-resident contractors, it is proper to state that this road is intended to connect the city of Glasgow, on the Missouri River, with the town of Huntsville, in Randolph Co., Mo., and is about twenty eight miles in length. The country over which it passes abounds with suitable timber, and is in other respects favorable to the cheap construction of plank roads. There are, however, a few streams which will require bridges of considerable extent.

The time for the completion of the road has not yet been fixed, and though it is desirable to complete the road as soon as possible, yet sufficient time will be allowed contractors. Contractors may rely upon promptness in payments, as the means of the company are ample.

Those who wish to examine the route will receive all necessary information from Maj. R. Walker, the Engineer.

Bids will be received until the first of June next, when it is proposed to assign the work to the bidder or bidders whose proposals may be approved as most favorable to the company. Plans of the work will be ready for inspection first of April.

The American Cough Candy.

WE know of nothing in the annals of medicine which has achieved, within the same space of time, so just and general a reputation, as the above invaluable *Cough Remedy*. Testimonials of its wonderful efficacy in curing the most inveterate cold continue to flow in upon us. We are assured that where ever used it is superceding all other remedies of the kind. Grevious to relate, the Nightengale had she tested its virtue, probably never would have taken to herself a Goldschmidt. She having taken that melancholy step, from the fear that her voice was gone forever; having experienced only temporary relief from the Remedy last taken.

Why is the American Cough Candy like a Black Cloud? Because it goes ahead of Storms.

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

PEPSIN

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, hat the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

Sold by all Druggists and Dealers in Medicine.

WISTAR'S

BALSAM OF WILD CHERRY

THE BEST REMEDY EVER KNOWN

To MAN, for Coughs, Asthma, Colds, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption, &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced in our ever-varying climate.

WILD CHERRY has long been known to possess important medicinal properties. This fact is familiar to every matron in our land, and physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, again, it was nearly valueless—owing, no doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experiment and long experience.

The extraordinary medicinal powers of these two substances are now, for the first time, combined and embodied in DR. WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process, everything deleterious or useless is rejected, so that what remains is the most extraordinary and truly efficacious remedy for all kinds of pulmonary and liver diseases ever known to man. To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine:

PLEASANT RIDGE, Ham'n Co., O.,
September 27, 1850.

J. D. Park—Dear Sir:—I take the liberty of advising you of the benefit I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption, in May last. The attack was truly horrifying to me, for five of our family, (brothers and sisters,) had died of Consumption. I was afflicted with nearly all the worst features of the disease. I had a distressed cough, and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat and copious night sweats.

I was under the care of a skillful physician, from the time I was taken sick until about six weeks since, being then about helpless, and my friends considered my case hopeless, or at least beyond our Physician's skill, and advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge, my father procured it, and commenced administering it to me, and from the first day I commenced taking it, my health improved, and in two weeks from the time I commenced using it, I was able to be out and oversee my business, and labor, which I still continue to do. I have taken four bottles of the medicine, and now consider myself perfectly well. JEREMIAH ISGRIGG.

Another astonishing Cure!

F. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to

"DR. WISTAR'S BALSAM OF WILD CHERRY."

Rushville, Fairfield Co, O, April 6, 1851.

Mr. J. D. PARK—Dear Sir:—I wish to state to you that my daughter, Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which rendered her very much, and left her with a racking cough. I employed all of the physicians, within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried Dr. "Rogers' Liverwort and Tar." But this aggravated her cough, and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, "Sarah Jane," was cured of consumption by "Wistar's Balsam of Wild Cherry;" this created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief; her health was improved from the first bottle, and by the use of two bottles of "Wistar's Balsam of Wild Cherry," she was restored to perfect health, and she is not at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption, *do not despair*, for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it.

F. KALB.

The genuine Wistar's Balsam of Wild Cherry has a fac simile of the signature of Henry Wistar, M. D. Philadelphia, and "Sanford & Park" on a finely executed steel engraved wrapper. No other can be genuine.

Price $1 per bottle—six bottles for $5.

Druggist, 3[illegible]4 W Water st., 2nd ward
Milwaukee, Feb 3, 1852

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr Graessle
AUGUST KRUG,
Brewer, Chestnut st., 2nd ward

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr Graessle, have found them perfectly answering the purpose intended Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water proof covering, but above all for its durability The ridges and channels not only exclude the entering of snow or rain water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection Besides this, Mr Graessle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable, and joining to the above another virtue, viz that of dispensing with repairs The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material

To G Graessle —I have examined the Roofing Tile made by you and have no hesitation in recommending them to general use, and particularly as a fire proof roof

THE HUMAN FRAME
Is the most perfect masterpiece of mechanism in the universe Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole

PAIN
Disorganizes the whole system, it prostrates the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system no matter in what particular locality the pain may originate, whether in the Head, the Feet, the Back, the Knee Joints the Elbows, the Teeth, the Gums, or the Stomach, whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system — Not a nerve or a muscle escapes its prostrating influence

INSTANT RELIEF FROM PAIN
Is the great desideratum of every individual who suffers its tortures no matter how light or severe its paroxysms may be No one can feel happy while suffering its torments

RADWAY'S READY RELIEF
In a few seconds
WILL STOP THE MOST DISTRESSING PAINS.
Its effects are like electricity, it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ

NEURALGIA.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint In a few minutes the pain stricken sufferer experiences the delightful sensations of departing pain It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door The effects of the Ready Relief is to stop the pain immediately to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains

DANGEROUS PRACTICE
The use of Morphine, Strychnine, Aconitine, Belladonna Arnica, and other poisons are not only dangerous but cruel The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation*
If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,
And all other dangerous and narcotic influence To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system

SICK HEADACHE.
Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system

ALL BOWEL COMPLAINTS,
Diarrhoea, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,
It relieves the most severe pains in a few minutes—checks the most distressing discharges, and
SPEEDILY REMOVES THE CAUSE.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head, and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $3.25, surpassing any $5 Hat sold in this city.
